28. Description of Change: (use additional Sheets if necessary)
Functionality lab is experiencing problem with memory and swap space on JUROR2 machine. Juror 2 has currently 256 M of memory and 512 M swap space which is not enough to run their scanarios on juror2 (unable to fork processes during the Ingest install; DD~~IST and Ingest in OPS mode, on~~STMGT OPS mode runs on juror2)
FRT mode Ingest is on JUROR2

29. Proposed Solution: (use additional sheets if necessary)
Functionality Lab has released Juror machine from which they can get 256 M additional memory to be installed on Juror2. Also Juror has 2 GB boot DISK can be used for JUROR2 for additional swap space. This has been coordinated with EDS Sarah Lewallen. We have to coordinate with functionality lab for down time (proposed down time is Thursday 10/8/98 after 6:00 pm or Friday 10/9/98 from 7:00 am untill work is finished, hopefully before 9:30 am)

30. Alternate Solution: (use additional sheets if necessary)

31. Consequences if Change(s) are not approved: (use additional sheets if necessary)
Funvtionality lab integration/testing could delay due to insufficient H/W resources.
